Total Patient Responsibility **\$2,908.80**

Provider billed **\$36,472.00** total. Your plan's allowed amount reflects negotiated rates, not the provider's list price. **CARC 18** is the national Claim Adjustment Reason Code for an exact duplicate service and means this plan will not pay it twice -- if your provider's statement still shows a balance for this line, that's worth disputing directly with them.
